## UFG Intensified Fucoidan Supplement

FuCoyDon® is an extremely potent, bio available, restorative, liquid supplement which researchers proclaim may be the greatest source of support for intensive regeneration at a cellular level. It contains a remarkable natural enlivening invigorator, Limu Moui, that contains the active component fucoidan. This magical component of brown seaweed boasts 1000+ scientific studies that can be found in the United States National Institute of Health, Library of Medicine. Fucoidan is a complex sulfate polysaccharide (sugar), a powerful anti-oxidant that demonstrates anti-inflammatory properties and essentially is a water-soluble dietary fiber.(3)

This ancient sea vegetable is grabbing the attention of health care professionals around the globe. Scientific studies support the amazing regenerative properties of fucoidan for nearly every system in the body. Fucoidan has been studied for its active anti-viral, anti-bacterial and anti-fungal properties.(4)

FuCoyDon is an essential part of Sisel's Triangle of Life®. Taken along with Eternity® and SpectraMaxx®, you are flooding your body with important trace minerals, vitamins and nutrients that demonstrate through research to contain antioxidant and anti-aging properties. (5)

Here is what makes our FuCoyDon even more special and unique. Tom Mower Sr. has a patented process to create a super concentrated and super saturated product that allows for maximum absorption and bioavailability. The fucoidan is flash pasteurized for 6 seconds then rapidly cooled down so as to not break down the important active ingredients. Sisel's fucoidan is formulated completely different from other fucodians bringing you the concentrated actives to maximize the efficacy of the product. FuCoyDon supports regeneration of your cells, promoting the health of nearly every system in your body.

*"Since I started taking FuCoyDon I have noticed more mobility in my joints, more endurance and less discomfort after riding my bike for long periods of time. I am sleeping better and I mentally feel stronger. I highly recommend this product for its regenerative properties. I love the fact that it is backed by significant science and research."*
