Billing address and shipping address can be different.

For example you can ship products to any address. However billing address must match the credit card statement address. You can use a family members or other authorised person's credit card

Once signup is complete you will receive a User ID and password (which you have entered).

Please go to www.siselinternational.com and click the login button top right corner to login to your back office and place orders.

Please keep your initial welcome email from Sisel it contains your ewallet pin if you joined as a distributor. If you lose it you can always obtain it from your back office message centre by scrolling to the first email sent to you it is recorded there.

Once joined you can login and place your first order.

You have the choice of ordering from either the NFR (Not for Retail Sale) or Retail catalog, you may want to place two orders depending on the products you want to order. So separate orders are needed if ordering products from each catalog. Separate shipping is charged. Products are coming from different locations. This is because not all Sisel products are available for retail sale in Australia.

As a distributor you must log back in and set an auto ship of a minimum of 50 PV if you are starting to build a business to ensure you receive commission cheques. You can use either catalog. If you are a serious business builder you are best to set an auto ship of 250 PV per month. You can change your order each month. Sisel notify you 3 days prior to the auto ship being processed.

When you log back in to order using your ID and password via www.siselinternational.com you will see your back office as below. You can place two orders if you need products from each of the catalogues. See below. Go to orders tab. Once New Zealand opens mid year 2017 shipping time and cost will improve.
