

# Terminator<sup>®</sup> Mouth Rinse

Healthy Fresh Breath is a Swish Away

**Terminator<sup>®</sup> Mouth Rinse** is unlike any other oral hygiene product available. Rather than cover or suppress odor, Terminator actually eliminates the odors that cause bad breath, without strong chemicals or alcohol.

The key ingredient in Terminator is stabilized chlorine dioxide, which, when used in a mouth rinse, eliminates odor and bad breath.

Another distinctive feature of Terminator is the all-natural sweetener xylitol. Unlike ordinary sweeteners, xylitol does not feed bacteria that cause dental caries or plaque. When used as part of a complete dental hygiene program, Terminator can help improve your next dental checkup. And the cool, minty flavor leaves your breath fresh and inviting.
