The Science Behind Exfolium

Caviar Lime Extract: A new natural source of Alpha Hydroxy Acids (AHAs) extracted from the precious native Australian Caviar Lime, that naturally assists with skin desquamation (skin desquamation).

Dermal Rx SRC: Through a bio-fermentation process, using a proprietary strain of yeast, Dermal Rx SRC helps the skin to gently loosen coarse, keratinized cells at the surface, revealing younger cells.

Perfection Peptide P3: Biomimetic peeling for beautiful skin and the appearance of rejuvenation. It helps the skin to look smooth and radiant.

Multifruit™ BSC: A natural source for AHA's. A concentrated blend of botanical extracts from Bilberry, Sugar Cane, Sugar Maple, Orange & Lemon. These extracts contain several naturally occurring alpha hydroxy acids that help promote smoother, younger looking skin.
