

Eternity®

Resveratrol Beverage Supplement

Eternity® is a more perfect name for a superior concentrated elixir that floods the body with high powered antioxidants including Resveratrol, an ingredient that addresses the daily struggle we all face with oxidative damage from detrimental free-radicals.

Resveratrol is found largely in the skins of red grapes for protection support against fungus, ultraviolet light, stress or trauma. It is interesting that Resveratrol is protecting the plant from the harsh environment and it may do the same for mankind.

Mounting evidence demonstrates that Resveratrol, vigorously supports the vitality of a specific sirtuin gene, SIRT1, providing support for the mitochondria, a kind of cellular battery that slowly runs down as we age.⁽³⁾ By recharging the batteries with Resveratrol, SIRT1 could have profound effects on health including increased energy, longevity and weight release support.

It is a known fact that high amounts of Resveratrol actually deliver impressive benefits. It would take approximately 40 bottles of red wine to equal a 1oz (30 ml) serving of **Eternity**.

Eternity's proprietary liquid support system is designed to protect it through the entire digestive process and deliver its particles into the very cells that utilize them. Holding **Eternity** in your mouth for approximately 60 seconds before swallowing will mix with enzymes in the mouth and greatly support its increased absorption and bioavailability.

Eternity is a powerful anti-oxidant tonic that is also loaded with additional pigmented fruit extracts and energy boosting nutrients. **Eternity** is an essential part of Sisel's Triangle of Life®. By taking it along with FuCoyDon® and SpectraMaxx®, you are flooding your body with important trace minerals, vitamins and nutrients to achieve potentially strong anti-aging support properties.

Science recognizes that free-radicals can set off internal inflammatory cascades and damage DNA which can become chronic, degenerative and increase the aging process. Resveratrol address these issues head on with its superior free-radical scavenging capabilities and activation of SIRT1. Drink up and enjoy the multiple benefits of **Eternity**.
