

Balance D™

Natural Fiber Dietary Supplement

Sisel is setting a new standard in the category of fiber by creating **Balance-D™**. Fiber is important to everyone's diet, but there are other basic elements that are often overlooked that are vital to a healthy gastrointestinal tract. These elements are prebiotics, probiotics, fiber, and Vitamin D. **Balance-D** combines all of these, creating a synergistic blend that offers optimal digestive support.

Why are these important?

Prebiotic: Chicory root helps to create an ideal environment where probiotics can thrive. Prebiotics are food and fuel for probiotics.

Probiotic: Rhamnosus, Acidophilus, and Bulgaricus are all infused in **Balance-D**. When these probiotics enter your body, they flourish because of the prebiotic found in Chicory root.

Organic microfiber: Apple, Chicory root, and Maltodextrin are the microfibers that work by creating long chain polymers that grab, bond, and assist the removal excess waste from the lower intestine.

Vitamin D: **Balance-D** contains 300IU of Vitamin D per serving, which helps your body absorb calcium, and helpssystems you may need for bone growth and regeneration potential.

Balance-D stands out in the world of fiber supplements as one of the most comprehensive, effective, and balanced fiber products available on the market.
