

Body Shield™

Natural Immune System Support Supplement

Body Shield™ combines the incredible health benefits of Limu Moui extract with the dynamic antioxidant support of fulvic acid, and helps you stay on top of feeling healthy. This natural powerhouse may offer heightened cellular protection, increased nutrient uptake, and aids in improved detoxification. Paired with superior thyroid and immune system support, our supplement packs a mean, nutrient-charged punch for most anything life throws your way.

Body Shield contains organic fulvic acid, which is loaded with fulvates and trace minerals. The formula is also fortified with Limu Moui and kelp. Researchers believe that organic fulvic acid offers massive support for the body; they theorize that it promotes the healthy function of the body's own natural processes that support detoxification, cellular cleansing, and nutrient uptake. Scientists postulate that organic fulvic acid can, like a molecular train, transport nutrients in and take heavy metals out. The fulvates in **Body Shield** are potent antioxidant super-scarvengers. In addition, the seaweed extracts support healthy thyroid and immune system!

Powerful organic fulvates enriched with the dynamic synergy of organic fulvic acid and trace minerals provide intensive support for the body's fight to break down reactive chemicals. Proclaimed by scientists as nature's "Miracle Molecule," organic fulvates, powered by organic fulvic acid, offer massive support for the body's efforts in detoxification, cellular cleansing, and nutrient uptake. Organic fulvates may also possibly increase the alkalinity of your body's pH for optimal health, and are thought to be perhaps one of the most potent antioxidant super scavengers in the world! **Body Shield** also contains iodine-rich extracts of the exotic seaweeds Limu Moui and an extraordinary brown species of kelp to provide unique support for the healthy function of the thyroid and immune system. Enhance your biological protection today with **Body Shield**.
