The human brain is the largest internal organ in the body and one of the most susceptible to deterioration through the aging process.

Brain VITALITY™ is a rich combination of ingredients designed to nourish your brain and support healthy cognitive function.

Many brain supplements come in a form that can't be easily absorbed through the blood brain barrier and may get expelled as waste. **Brain VITALITY's** unique ingredients are more bioavailable than other traditional brain supplements, which leads to better, faster results.

Curcuma Longa (curcuminoids) supports cognition, memory, and attention span and is more bioavailable than traditional turmeric supplements.

Fenugreek Galactomannans may stimulate and regenerate brain cells. Fenugreek can also improve libido, mood, and mental awareness in both men and women.

Bacopa Monnieri contains saponin compounds which helps the brain communicate with itself. Bacopa promotes healthy brain functions that involve cognition, learning, and memory.
