CollagenB3™

Beauty. Body. Brain.

# Look, Think, and Feel Amazing

Collagen is the body's most abundant, fibrous protein that helps give structure and strength to hair, skin, nails, bones, ligaments, and tendons. Collagen is derived from the Greek word for glue as it holds everything in the body together.

Your skin is made up of 70% collagen and when your body isn't producing enough inside, it starts to show on the outside as fine lines and wrinkles. As we age and put more stress on our bodies, collagen production begins to decline. By adding **CollagenB3™** to a balanced diet, you can rebuild this essential building block.

Sisel's **CollagenB3** is a unique, synergistic blend of Collagen Protein, MCT Oil, Hyaluronic Acid, Chaga, with a Mineral Complex, plus Amino Acids, Magnesium, and Ginseng to help you look, think, and feel amazing.\* This comprehensive collagen product is perfect for those looking to support healthy hair, skin, nails, musculoskeletal function, and to provide brain fuel for energy and focus.

Reclaim Your  
Youthful Appearance

**BUY NOW**

## MULTI-COLLAGEN PROTEIN

This powerful complex makes CollagenB3 the complete choice. Unlike other products that only include one source of collagen, **CollagenB3** is formulated with Type I and III collagen to strengthen hair, skin, and nails, plus Type II collagen for bone and joint health.

## MCT OIL

A perfect brain fuel and a fan favorite for people on a ketogenic diet. MCT oil may support mental clarity, ketone production, appetite suppression, nutrient absorption, and gut health.\*

## HYALURONIC ACID

Although this miracle disaccharide polymer occurs naturally in the body, incorporating it into a daily diet may support added hydration and skin firmness and reduced moisture loss.

## MINERAL COMPLEX

Contains essential trace minerals to help fill in the gaps in our modern diet\*

## CHAGA

Nutrient-dense superfood containing B-vitamins, flavonoids, phenols, minerals, and enzymes to support the immune and digestive systems\*

## BIOTIN

May support healthier hair and nails.

## AMINO ACIDS

May support energy, muscle growth, connective tissue, skin health, recovery, and digestion\*

## DEOILED SUNFLOWER LECITHIN

An abundant source of essential fatty acids used as an emollient, helping skin feel smooth by restoring hydration.

## L-TRYPTOPHAN

An essential amino acid that plays an important role in the production of serotonin, which is critical for mood stabilization, and melatonin, which helps regulate sleep patterns.
