Reap the benefits of the ultimate beauty, body, and brain collagen complex.

CollagenB3 is a unique, synergistic blend of Collagen Protein, MCT Oil, Hyaluronic Acid, Chaga, with a Mineral Complex, plus Amino Acids, Cordyceps, Magnesium, and Ginseng to help you look, think, and feel amazing.* This comprehensive collagen product is perfect for those looking to support healthy hair, skin, nails, musculoskeletal function, and to provide brain fuel for energy and focus.

Collagen is the body's most abundant, fibrous protein that helps give structure and strength to hair, skin, nails, bones, ligaments, and tendons. Collagen is derived from the Greek word for glue as it holds everything in the body together. Because of collagen, we're able to move and flex.

Your skin is made up of 70% collagen. When your body isn't producing enough collagen inside, it starts to show on the outside as fine lines and wrinkles. The skin becomes less flexible, hydrated, plump, and elastic. As we age and put more stress on our bodies, collagen production begins to decline. The good news is that by adding collagen protein to a balanced diet, you can rebuild this essential building block.

Collagen protein and whey protein have somewhat different roles in the body. While both are proteins with unique amino acid profiles, collagen is a structural protein, while whey is more often associated with building muscle. That's why you should still supplement your diet with SiseLEAN[™]. Plus, Sisel's Collagen B3 is not a meal replacement.

The **MULTI-COLLAGEN PROTEIN COMPLEX** makes CollagenB3 the complete choice. Unlike other products that only include one source of collagen, CollagenB3 is formulated with Type II collagen for bone and joint health combined with Types I and III collagen to strengthen hair, skin, and nails.*

HYALURONIC ACID may provide hydration, reduced moisture loss, and added skin firmness.*

MCT OIL is a perfect brain fuel and a fan favorite for people on a ketogenic diet. MCT oil may support mental clarity, ketone production, appetite suppression, nutrient absorption, and gut health.*

CORDYCEPS may promote strength, performance, and endurance*

CollagenB3's **MINERAL COMPLEX** contains essential trace minerals to help fill in the gaps in our modern diet.*

CHAGA is a nutrient-dense superfood containing B-Vitamins, Flavonoids, Phenols, Minerals, and Enzymes to support the immune and digestive systems.* Chaga is also believed to help the restoration of skin elasticity from within.

AMINO ACIDS may support energy, muscle growth, connective tissue, skin health, recovery, and digestion*

BIOTIN may support healthy hair and nails.

DEOILED SUNFLOWER LECITHIN is an abundant source of essential fatty acids and phospholipids like phosphatidylcholine.

L-TRYPTOPHAN is an essential amino acid that plays an important role in the production of serotonin, which is critical for mood stabilization, and melatonin, which helps regulate sleep patterns.

FEATURES AND BENEFITS

Sisel CollagenB³ may:

- Support beautiful hair, radiant skin, and strong nails*
- Provide natural energy, stamina, and focus*
- Bolster bone, joint, cartilage, and tendon health for a stronger body*
- Support a healthy digestive tract*

DIRECTIONS

Mix two scoops with 8 - 10 oz of water in a shaker bottle or blender until uniform. For variety, use in baking, as a coffee creamer, or add to smoothies.

WARNING

If you are under the age of 18, pregnant, nursing or have a pre-existing medical condition, consult with your health care provider before taking this product. Discontinue use and consult your health care provider if any adverse reaction occurs. Do not use if tamper-evident seal is broken. Keep out of the reach of children. Store in a cool, dry place.

CollagenB³ is a great companion product to **SiselTHIN™** as recent research shows that individuals suffering from obesity have decreased levels of collagen production. The MCT oil in CollagenB³ may be converted into ketones in the liver to add to the brain boosting ketones produced by supplementing with **SiselTHIN**.
