

InFLUence[®]

Immune System Support Dietary Supplement

Supercharge and Fortify Your Immune System.

The **InFLUence** arsenal of powerful, targeted ingredients provide massive support to supercharge and fortify your immune system. Elderberries contain anthocyanins, anti-oxidant flavonoids that may protect many of your body's systems. Furthermore, lactoferrin supports increases of immature neutrophils, which can destroy microorganisms.

In vitro, curcumin enhances the power of T cells, B cells and natural killer cells (types of white blood cells known as lymphocytes), macrophages, "big eaters", which engulf and digest cellular debris, pathogens and neutrophils. Star anise has a naturally abundant supply of shikimic acid and a long history of herbal use in many cultures throughout the world.

This arsenal of powerful ingredients provides massive support to supercharge and fortify the immune system:

- **Anthocyanins** are antioxidant flavonoids that protect many body systems.
- **Lactoferrin** supports the enhancing of of immature neutrophils in humans, which may help with microorganisms.
- **Curcumin** provides support of T cells, B cells, and natural killer cells (types of white blood cells known as lymphocytes), macrophages ("big eaters" which engulf and digest cellular debris and pathogens), and neutrophils.
- **Star Anise** has a naturally abundant supply of shikimic acid and a long history of herbal use in many cultures.
- **Quercetin** is an antioxidant flavonol and powerful immune supporter.
- **Zinc** has supported cell-mediated immunity.
- **Selenium** nutritionally supports natural defence cells, enhancing how the immune system performs.
