

Sisel® Rapid Repair Night Cream

Skin Moisture Replenishing Cream

ENJOY SILKY, RADIANT AND MORE ELASTIC SKIN.

Sisel® Rapid Repair Night Cream is not a sunblock or sunscreen. Rather, it is a rich replenishing and moisturizing cream designed to work as you sleep, with powerful antioxidants (especially ergothioneine) that have the potential to intercept oxidation as it occurs and before it can penetrate deeper or cause permanent damage.* Sisel has found a way to support stabilizing resveratrol so it can be released on demand and immediately neutralize oxidation.* Stabilized, oil soluble Vitamin C is another effective antioxidant, but its primary role is to replenish the support needs of the collagen in the skin so it stays beautiful, supple, vital and vibrant—and you don't lose elasticity. Our formula also features resveratrol with youthful appearance and anti aging effects.*

Typical night creams contain heavy moisturizers to hydrate the skin for a plumping effect. **Sisel Rapid Repair** does replenish moisture within the skin, but it takes a revolutionary approach to skin care. With its premium, biologically-derived, powerful ingredients, this potent formula directly counterattacks environmental factors that cause the skin to age with a broad spectrum array of oil and water soluble super nutrients.*

Instead of rehydrating the skin in ways that seal out the oxygen and seal in moisture, **Sisel Rapid Repair** helps the skin maintain its moisture-regulating barrier and rehydrate itself, while sealing out carbon dioxide, and toxins that the skin is trying to eliminate.*
