

SpectraMaxx[®]

Extreme Anti-oxidant Megatonic

SpectraMaxx[®] will provide you maximized nutrients to replenish your body from top to bottom. We are a society faced with nutritional depletion and escalating toxicity. Our agricultural practices are aggressive and extensive, and ultimately what suffer are our nutrient and trace mineral depleted soil and resultant crops.

Over the years, studies have demonstrated that compared to plants of only 50 years ago, what we eat today may have up to 75% fewer valuable nutrients. Let's look at a USDA evaluation of the declining nutritional content of Broccoli.

SpectraMaxx is the ultimate super charged antioxidant/trace mineral formula that is super concentrated to be bioavailable to all of our cells and vital organs. The body needs the proper nutritional components to function at its full genetic and biological potential. If we are nutritionally depleted, the body is a set up for inflammation, degenerative, metabolic and catastrophic complications especially on overall health. We believe that in order to fuel essential biological processes the right vitamins and trace minerals must be present. **SpectraMaxx** delivers approximately 40 high powered antioxidants, 74 essential trace minerals, and helps combat over 2200 families of free radicals that may bombard us daily.

One of the key ingredients that is responsible for the effectiveness of **SpectraMaxx** is fulvic acid. Fulvic acid is created when millions of beneficial microbes biodegrade decaying plant matter in the soil. Fulvic acid is biologically very intense, with approximately 70 or more minerals and trace elements that may be effectively absorbed. Fill in the dietary gaps with **SpectraMaxx** and help support your energy and focus.
