A woman with long dark hair, wearing a wide-brimmed straw hat, a white long-sleeved top with lace detailing, and blue jeans, is sitting on a light green bicycle. She is holding a black mesh basket filled with pink flowers. A small woven basket hangs from the handlebars. In the foreground, a bottle of sisel TSX dietary supplement is visible. The bottle is white with a blue label that reads 'ADVANCED FORMULA', 'sisel', 'TSX', 'advanced TELOMERE support', and 'DIETARY SUPPLEMENT 60 CAPSULES'. The background is a blurred outdoor setting with greenery and a white car.

The Most Advanced Telomere Age-Defying Support

At the ends of the chromosomes are stretches of DNA called telomeres. This is a repeating DNA sequence that sits like a “beanie cap” or “small sock” at the end of each chromosome. Telomeres protect our genetic data and make it possible for cells to divide, as well as regulate the duplication of our cells.

Our bodies manufacture an enzyme that keeps telomeres strong. But as we age, this enzyme production diminishes, resulting in the telomeres growing shorter. As they shorten, more fraying on the strands of DNA and chromosomes occurs, and—as scientists speculate—it results in aging.⁽¹⁾

Sisel® has an answer to reversing the aging clock with **Telomere Support Xtreme**—also known as **TSX™**. This is a phenomenal breakthrough in science and nutritional technology. **TSX** has the ability to support telomeres in your body which may slow the aging process.*

Turn back the hands of time with TSX

TSX™ supports cellular health and, just as importantly, supports telomere health in your body, which may be like turning back the clock and make you feel younger!*
