

Sisel® Calcium K2

Bone Support Dietary Supplement

Americans possibly have one of the world's highest calcium supplement intakes but continue to also have one of the highest rates of osteoporosis. It is predicted that as many as half of all women and a quarter of men who are over 50 may break or fracture a bone. Researchers from Stanford University School of Medicine published in the American Medical Association Journal, in July 2004, that millions of Americans may have bone problems and don't know it.

Dietary calcium, on the other hand, seems to be disappearing from the American diet, and from other countries that adopt similar eating habits. As poor food choices are rampant, a calcium supplement formulated for easy assimilation, is important for healthy bone support. Sisel's answer to the widespread need for easy-to-assimilate calcium is Sisel CalciumK2; a cutting-edge product that contains a mix of vitamins and minerals and blend of three different calciums. This unique combination of important nutrients makes Sisel CalciumK2 different from most other supplements.

Vitamin K2 regulates calcium in the bones and in the arteries, offering support to the skeletal and circulatory systems. Research shows that without adequate amounts of vitamin K2, calcium may promote calcification of the arteries and other soft tissue.

To help calcium go into the bones, Vitamin K2 initiates a process called carboxylation, which gives bone proteins a way to hold on to calcium. Without K2, calcium may leave the bone and go into the bloodstream. Excess may be deposited in arteries and other soft tissue. Vitamin K2 may help protect the body from calcification.

Sisel® Calcium K2

Bone Support Dietary Supplement

120 Capsules

FEATURES & BENEFITS:

- Supports Bone & Tooth Health
- Assists Nervous System Functions
- Helps Create Strong Bones
- May Increase Bone Density
- Guards Against Calcium Depletion
- May Help Prevent Calcification of Arteries
- Contains Easy to Digest Calcium

DIRECTIONS

Take four 4 capsules daily.

CAUTION

If you are pregnant, nursing or have a pre-existing medical condition consult your health-care provider before taking this product. Do not use if tamper-evident seal is broken. Keep out of reach of children.

ALLERGENS

Contains ingredients made from milk products.

Supplement Facts

Serving Size: 4 capsules
Serving Per Container: 30

Amount Per Serving	% Daily Value	
Calories	10
