

SpectraMaxx®

Extreme Anti-oxidant Supplement

SpectraMaxx® will provide you maximum nutrients to replenish your body from top to bottom. We are a society faced with nutritional depletion and escalating toxicity. Our agricultural practices are aggressive and extensive, and ultimately what suffer are our soil and resultant crops.

Over the years, studies have demonstrated that compared to plants of only 50 years ago, what we eat today may have up to 75% fewer valuable nutrients. Let's look at a USDA evaluation of the declining nutritional content of Broccoli.

Table 1—Selected Nutrients in Broccoli

Broccoli—Nutritional Changes 1975-2010* (per 100 grams raw edible portion)

| | 1975 | 2010 | Change |
|-------------------|---------|---------|------------|
| Calcium | 103 mg | 47 mg | Down 54.4% |
| Iron | 1.1 mg | 0.73 mg | Down 33.6% |
| Vitamin A | 2500 IU | 623 IU | Down 75.1% |
| Vitamin C | 113 mg | 89.2 mg | Down 21.1% |
| Thiamin | 0.10mg | 0.07 mg | Down 35% |
| Riboflavin | 0.23 mg | 0.12 mg | Down 47.8% |
| Niacin | 0.9mg | 0.64 mg | Down 28.9% |

SpectraMaxx is the ultimate super charged antioxidant/trace mineral formula that is super concentrated to be bioavailable to all of our cells and vital organs. The body needs the proper nutritional components to function at its full genetic and biological potential. If we are nutritionally depleted, the body is a set up for inflammation, degenerative, metabolic and catastrophic disease. In order to fuel essential biological processes the right vitamins and trace minerals must be present

SpectraMaxx delivers 40 high powered antioxidants and 74 trace minerals.

SpectraMaxx helps combat over 2200 families of free radicals that bombard us daily and provide the necessary fuel to energize essential pathways in the body. The pigmented fruit extracts load us up with ellagic acid-another potent antioxidant that has shown promising research in multiple areas of health.

One of the key ingredients that is responsible for the effectiveness of **SpectraMaxx** is fulvic acid. Fulvic acid is created when millions of beneficial microbes biodegrade decaying plant matter in the soil. Fulvic acid is biologically very active, usually carries 70 or more minerals and trace elements as part of its molecular structure and is in the ideal form to be absorbed by plant roots.

Fill in the dietary gaps with **SpectraMaxx** and help support your energy and focus.
